DILEONARDO BRINGS LUXURY TO LAGOS

The new InterContinental Lagos, Nigeria's first five-star hotel, features interiors created by DiLeonardo International that are designed for international business travelers and diplomats. Highlights of the firm's design for the 352-key property's guest rooms include a bathroom housed behind a glass wall; an off-white, large-scaled floor tile; a rusty, earth-toned area rug under the bed; and a maple-clad headboard wall. "This is a landmark property for the region, and we are very glad to have played a part," says partner Giana DiLeonardo.
